Protect your barre, yourself and others with Barre Guard™

The Barre Guard™ is a convenient, dual-purpose protective device for use in dance studios. Whether in a dance or fitness class, Barre Guard™ assures students that their barre space is their own, and assures studio owners that each student maintains her distance from others, while maintaining a clean and hygienic space.

Barre Guard™ is best used in studio environments with several students, with each student bringing her own guard. Students should be instructed to only utilize the space occupied by their barre guard to ensure appropriate social distancing and help manage studio cleanliness.

Clean / Dirty Protective Bag Set

Protect your belongings and yourself by keeping your clean & dirty items separate with this set of drawstring bags.

The Clean/Dirty Protective Bag Set was created specifically to help dancers safely return to the dance studio after closures related to Covid-19. As a protective measure, these bags remind dance students to be mindful of keeping their "used" items separate from their clean items.

Set Includes two bags, one embroidered with the word "CLEAN" and one embroidered with the word "DIRTY"
